Rivne City Territorial Community is located in Western Ukraine. It steadily develops searching for better prospects and new forms of business cooperation. The Community has comfortable and friendly environment for business.

The development of small and medium-sized companies and the attraction of investments are the foremost strategic priorities for the growth of economy. Along with that, the Community constantly introduces modern methods of providing services for business and investors.

The Territorial Community is a community with a diverse, intellectual and highly skilled workforce. It is a successful community, with balanced development and, therefore, there is an opportunity for effective implementation of projects of any complexity.

The geographical location of the Rivne City Territorial Community creates all possible preconditions for further active development and the community has enormous investment potential.

The city of Rivne, as the administrative centre of the Rivne City Territorial Community, is located 158 km from the border with the European Union and 320 km from the capital city of Ukraine – Kyiv.

We cordially invite you to cooperation!

historical facts

Rivne is a great city, one of the largest cities in Western Ukraine, with over 700 years of history. Volodymyr Vasyliovych, the prince of Volhynia and the nephew of the well-known Daniel of Galicia (Danylo Halytsky) built Rivne on the eastern borders of his principality. From 1200 to 1340, the territory of the city belonged to the Kingdom of Galicia–Volhynia. After the partition of this kingdom in 1340, the territory of the present city belonged to the Grand Duchy of Lithuania. Since 1350s Rivne it was under the rule of Great Duchy of Lithuania.

Since 1461, the city belonged to Prince Semen Nesvizh (Semen Vasyliovych Nesvitskyi), the representative of the Rus'ian and Lithuanian dynasty Gediminovich. Since 1479, the city was passed to his wife Maria who became known as the Princess of Rivne. From 1518 to 1621 the city belonged to the Princes of Ostrog.

During World War I, it was a frontline city for a long time. From September 1920 the city was a district centre of Polish Volhynian Voivodeship. In December 1939, Rivne became the centre of the newly established Rivne Oblast, within the Ukrainian SSR.

In the 1960s and 1980s, the city faced the period of intensive growth and development. It was a dramatic change of the overall look of Rivne: there appeared new residential areas in the city centre, new neighbourhoods and new powerful companies. The population of Rivne also grew significantly.

In the late 1980s, when the top management of the Soviet Union introduced new domestic policy within the framework of so-called «Perestroika» and truly relaxed some of the existing restrictions, Rivne finally faced the revival of the national liberation movement. At this time Rivne inhabitants created the first branches of the Taras Shevchenko Ukrainian Language Society and the People's Movement of Ukraine.

On June 16, 1990, when for the first time in years the public of Ukraine in general and Rivne Oblast (region) in particular openly and solemnly celebrated the anniversary of the Battle of Berestechko, the yellow-and-blue flag was flown over an official governmental building of the City Council. The opening of the City Council sessions started with the state anthem «Shche ne vmerla Ukraina», a long before its music was officially adopted.

On May 22, 1999, the Taras Shevchenko Monument was unveiled on maidan Nezalezhnosti (Independence Square). The square and monument to Maria Nesvytska, the local Princess and the founder of the city of Rivne became the real gem and the recreation spot for both Rivne residents and the city guests.

Rivne is the administrative, economic and cultural centre of Rivne Oblast (region). It is an excellent strategically located city with a great business climate, all required infrastructure for successful business, and a decent quality of life. The city also enjoys rich and diverse cultural life as it partners with art events, festivals and concerts all-year round.

The first recorded mention of Kvasyliv dates back to 1445. Throughout its history, from the moment when the town was established, Kvasyliv has been the centre of both political and public life in Volhynia. Josef Perny was the main initiator of the founding of Kvasyliv.

In 1873, Czech brewer Josef Zeman moved with his family to Kvasyliv and began the construction of the local brewery. The brewery provided beer to Rivne, Kvasyliv and nearby villages. They produced only draught beer (also called spelt draft). After the war, the enterprise was reconstructed and its capacity increased fivefold. In 1885, the community built a new Orthodox church, which later became a cathedral. Kvasyliv acquired the status of an urban-type settlement in 1978.

The imperative advantage of the Territorial Community is the location at the intersection of three international highways.

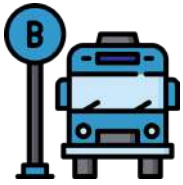

The E40 International Motorway is the longest European highway of 8 500 km, connecting the French city of Calais through Belgium, Germany, Poland, Ukraine, Kazakhstan, Uzbekistan, Turkmenistan and Kyrgyzstan to the Kazakh city of Ridder near the border with China.

European route E373 is a European highway (590 km) passing through the territory of Ukraine and Poland. The route runs from Kyiv through Korosten, Sarny, Kovel, the international checkpoint Yahodyn - Dorohusk, Chełm, Piaski to Lublin.

The European route E85 is a European highway that originates in Klaipėda, Lithuania and ends in Alexandroupoli, Greece. The total length is 2 300 km.

international coorperation

The cooperation of Rivne with the Nordic Environment Finance Corporation (NEFCO) began in June 2015

The city has successfully implemented of NEFCO-1 project «Implementation of Energy Saving in Three Schools and Energy Management System at Rivne Budget Establishments» (school No. 18 and 27) and of NEFCO-2 project «Implementation of Energy Saving in Rivne Educational Establishment» (school No. 26)

School No. 27

School No. 26

School No. 18

NEFCO

The project «Investments in energy efficiency of public facilities and street lighting in Rivne» was implemented in the amount of EUR 1.2 million (by the NUEE fund).
As part of the project, thermal modernization was implemented in three preschool education institutions (Kindergarten No. 46, No. 33, No. 14) and individual heating points were installed in 8 institutions of the communal sphere of the Rivne City Territorial Community

Kindergarten No. 46

Kindergarten No. 33

Kindergarten No. 14

The project «Reconstruction and restoration of the municipal infrastructure of Rivne city to support the urgent needs for internally displaced persons» in the amount of EUR 1.56 million is being implemented. Within the framework of the project, comprehensive thermal renovation of three buildings is being implemented in order to improve the living conditions of children with special needs, including children of displaced persons.

The project is implemented with the financial support of the European Union, with the participation of NEFCO, as an executive organization, within the framework of the NIP Program «EU Support to Urgent Housing Needs for Internally Displaced Persons in Ukraine»

Funded by the European Union

Kindergarten No. 35

NEFCO

The city of Rivne is implementing two infrastructure projects under the Interreg NEXT 2021–2027 Programme with a total value of over EUR 1.6 million:

- "Development of Sewerage Infrastructure and Improvement of Wastewater Management in Rivne and Lublin" (project cost – EUR 1.36 million). The project involves the construction of a stormwater and meltwater drainage system along Chornovola, Drahomanova, and Zamkova streets, as well as the installation of complex separator systems that will allow treated water to be directed into the city's aquatic ecosystem.

- "Fire-Resistant and Waterproof: Cooperation of Civil Protection Services of Lublin and Rivne" (project cost – EUR 281.0 thousand). As part of the project, 100 new above-ground fire hydrants will be installed, significantly reducing the response time of fire and rescue services and enhancing public safety, particularly in the event of potential emergencies

Interreg NEXT Poland-Ukraine Co-funded by the European Union

The project "The Missing Link in Ensuring Building Energy Efficiency," implemented under the LIFE Programme, is carried out with financial support from the European Climate, Infrastructure, and Environment Executive Agency (CINEA). The project cost amounts to **EUR 622.1** thousand

The expected results of the project are:

- creation and operation of a permanent Energy Efficiency Office in the city of Rivne;
- implementation of at least 30 thermal modernization projects in multi-apartment buildings;
- annual increase in the number of energy efficiency projects by 10, based on a baseline of 10 projects per year;
- attraction of investments for energy efficiency measures totaling at least EUR 3.52 million;
- achievement of annual primary energy savings of 3.42 GWh

The project "Investments in Energy Efficiency of Budgetary Buildings and Street Lighting in Rivne," with a total value of EUR 3.6 million, is being implemented jointly with NEFCO. Within the project, works are being carried out on the full thermal modernization of educational institutions (Preschools No. 57 and No. 7); modernization of street lighting on 27 main streets, 118 secondary streets, and courtyard areas in the city of Rivne; and the installation of solar photovoltaic stations on the roofs of the surgical and therapeutic departments of the Rivne Central City Hospital

NEFCO

Cooperation with the **European Investment Bank**

● The project "Implementation of Energy-Saving Technologies in Rivne's Municipal Infrastructure," valued at EUR 1.5 million (loan funds), is being implemented. It provides for the comprehensive introduction of energy efficiency measures in two educational institutions of the Rivne City Territorial Community: Rivne Lyceum No. 8 of the Rivne City Council and Rivne Lyceum No. 13 of the Rivne City Council

○ The project "Improving the Energy Efficiency of Rivne's Municipal Infrastructure," valued at EUR 2.0 million (loan funds), is planned for implementation. It provides for the comprehensive introduction of energy-saving measures in two municipal facilities: Preschool Institution (Nursery-Kindergarten) No. 3 of the Rivne City Council, and the Municipal Non-Commercial Enterprise "Maternity Hospital" of the Rivne City Council

School No. 8

School No. 13

European Investment Bank

Implementation of the project «Creating a NetZero vision for the city of Rivne»

The city of Rivne is the only one among the cities of Ukraine to have received a grant and joined the fight against climate change within the framework of the NetZeroCities Pilot Cities Program - a two-year program funded by the European Union Mission.

Along with 52 other pilot cities such as Barcelona, Madrid, Rome, Amsterdam, Warsaw, Istanbul, Rivne is implementing innovative measures to improve adaptation to climate change and rapid decarbonization. The total cost of the project (grant funds under the Horizon 2020 program) is EUR 1.0 million

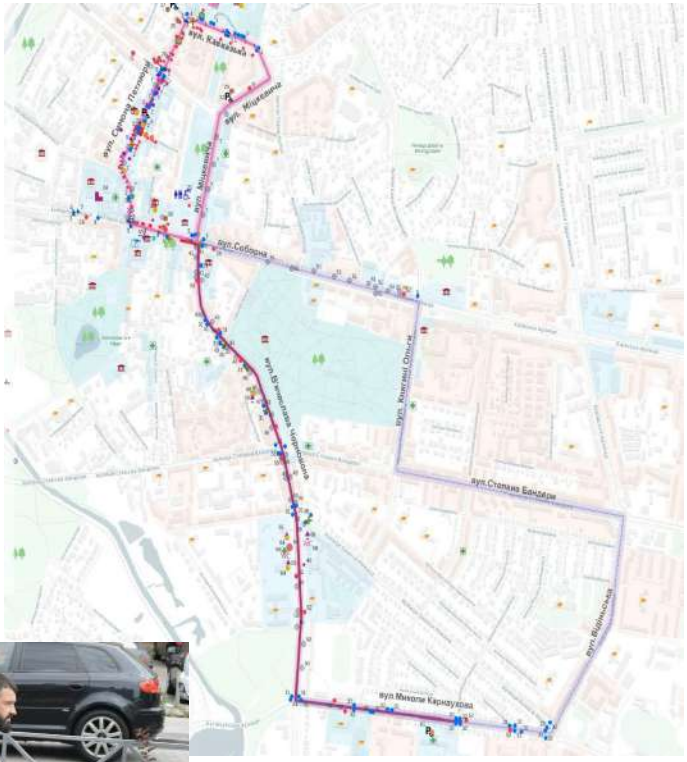

The main results of the project are:

- A unique intelligent system for monitoring energy consumption in municipal buildings with online recording and remote data transmission, "PROFIT";
- 60 municipal institutions equipped with temperature loggers;
- 239 water and electricity meters in public buildings with automatic data transmission;
- Three scenarios modeled for the community's transition to zero CO_2 emissions, including by 2050;
- Development of the NetZero Concept for the Rivne City Territorial Community by 2050;
- Creation of a demo center and a renewable energy laboratory at the National University of Water Management and Nature Resources

NET ZERO CITIES

○ The Inclusivity Route has been opened in Rivne – the first inclusive route in Ukraine, developed within the framework of the national project “Movement Without Barriers.” It is a 1.5 km barrier-free space on Symon Petliura Street that connects key city locations and will become part of a future 7.9 km route. The project was implemented through the cooperation of the city authorities and the charitable foundation “Ship of Help”, including the installation of tactile paving, lowered curbs, renewed pavement, sensor terminals, and landscaping. The initiative makes the city more accessible for veterans, people with disabilities, and groups with limited mobility, drawing inspiration from the examples of European inclusive capitals

The project «Cultural heritage of the kitchen – promotion of culinary traditions through the professionalization of the gastronomic offer of Lublin and Rivne» was implemented as part of the Cross-Border Cooperation Program Poland-Belarus-Ukraine 2014-2020, European Neighborhood Instrument. The total cost of the project is EUR 65.8 thousand

PL-BY-UA 2014-2020 Funded by the European Union

rewards

On **July 26, 2012,** Rivne has joined the EU Covenant of Mayors initiative, which entails a voluntary commitment by cities and towns to go beyond the objectives of the EU energy policy by achieving at least a 20% reduction of greenhouse emissions by 2020 through sustainable energy and climate protection actions

february 2020

april-may 2021

april-may 2023

According to the results of municipal surveys, carried out by the Sociological group «Rating», Rivne took 8th place among regional centers of Ukraine according to the percentage of residents who are proud of their own city

ISO International Organization for Standardization

Introduction of the quality management system in the work of executive bodies of Rivne City Council in accordance with the international standard

Certificate of quality in accordance with international standard of the quality management system **ISO 9001: 2015** was awarded to the team of the Rivne Regional Center for Administrative Services

In 2021, Rivne ranked in the top 5 best cities to live in Ukraine according to the assessment of the well-known FOCUS magazine

In **2020 FOCUS** magazine rated Rivne as number **four** most comfortable city in Ukraine

strategic development

2025

the Development Strategy of the Rivne City Territorial Community was approved

Rivne City Council Decision dated October 9, 2025 No. 7251

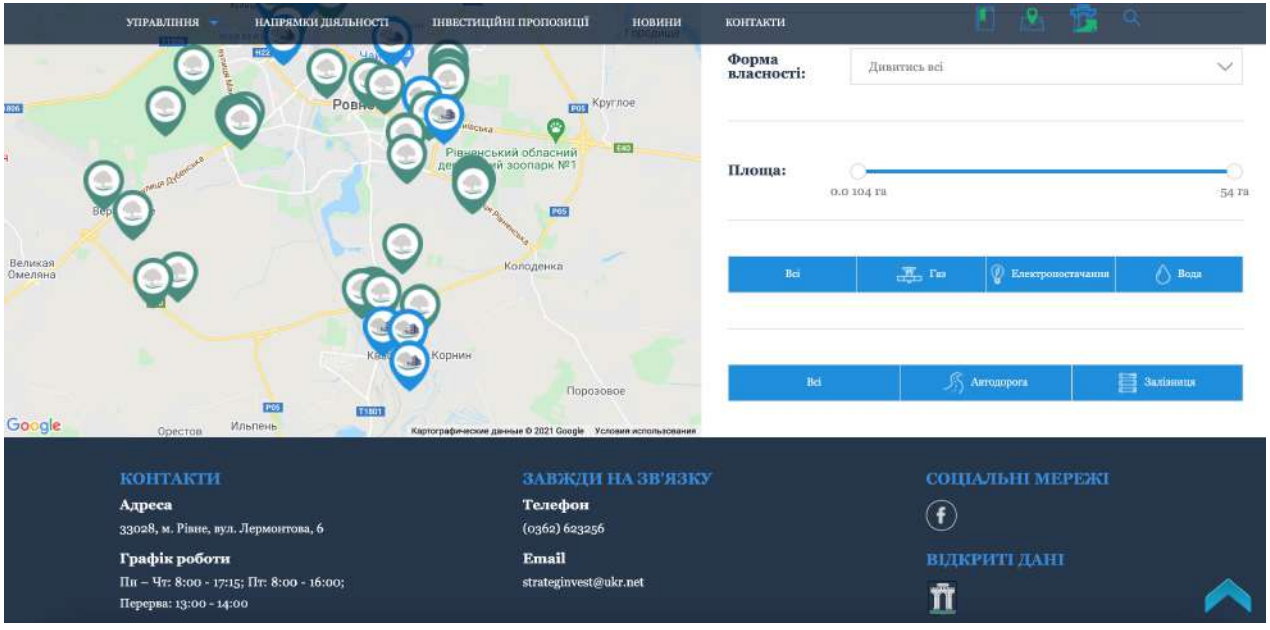

In accordance with the Law of Ukraine "On Local Self-Government in Ukraine" and taking into account the formation of the Rivne City Territorial Community through the unification of the city of Rivne and the settlement of Kvasyliv, the document of the Development Strategy of the Rivne City Territorial Community for the period up to 2027 has been updated:

https://rivnerada.gov.ua/publicservicesapi/api/search-document/load-senate-document/30088/0/7251/09-10-2025

The update of the Strategy document was carried out with the support of the Council of Europe project "Strengthening the Resilience of Democratic Processes through Public Participation During the War and in the Post-War Period"
